## **Public Meeting to be held concerning winter pool level for Allatoona Lake**

**Mobile, Ala.** -- Colonel Robert Keyser, U. S. Army Corps of Engineers Mobile District commander, will conduct a public meeting on September 26 at Cass High School near Cartersville, Georgia at 7:00 pm. The purpose of the meeting is to discuss issues and solicit public comment concerning a request, by public stakeholders, to increase the winter pool level for Allatoona Lake by 5 feet, from the currently approved level of 823 feet to 828 feet above mean sea level.

“One of Allatoona Lake’s major purposes is flood control; therefore, any change in the pool level will affect upstream and down stream residents,” said E. Patrick Robbins, chief Legislative and Public Affairs Office, Mobile District. “We encourage your attendance and welcome your comments,” he said.

Cass High School is located north of Cartersville, off Highway 41, at 738 Grassdale Road. Questions concerning the meeting may be directed to the Operations Manager’s Office at Allatoona Lake 770-382-4700.
